

**Green Madison** is a citywide effort to educate and inspire Madison residents to reduce energy use. As an added incentive, Madison is one of 50+ cities competing for a \$5 MILLION prize from Georgetown University that will go to the city that makes the biggest reductions in energy use. Here's how to get involved today:

- **All Madison residents** are invited to take part in Cool Choices, a city-wide online sustainability game.
  - Register, create a team, and play to save money, reduce energy use, and win prizes from Food Fight Restaurants, Colectivo Coffee, or even a 2016 CSA share!
  - Learn more: [www.greenmadison.org/get-involved](http://www.greenmadison.org/get-involved)
  
- **Madison homeowners**, did you know that energy efficiency improvements can cut utility bills by an average of \$400 per year?
  - Host a house party to receive a free energy assessment (\$200-\$400 value), recommendations for practical improvements, and follow-up assistance applying for rebates on any energy efficiency improvements you'd like to make.
  - Sign up for an energy audit for a reduced price as part of Green Madison. Your assessment will include an analysis of your home, prioritized cost-effective recommendations, and simple access to Focus on Energy rebates that will make upgrades affordable.

- **Madison landlords and tenants**, Green Madison has a team of experts to highlight existing energy efficiency resources available for apartment buildings! In partnership with Project Home and Focus on Energy, Green Madison serves as the streamlined point-of-contact to assist multifamily building owners.
  - Get assistance with rebate programs, free energy assessments, contractor selection, and quality assurance.
